

# Trimline 2050 On the Corner

THE PERFECT GAS FIREPLACE FOR ELEVATING AN L-SHAPED LIVING ROOM

Want to go for a unique look? This stylish fireplace will serve as a testament to your class and excellent taste, turning your L-shaped living room into a work of art. Light up your life with this fireplace that will make the room come alive with a single press of a button.

The standard version of the Trimline 2050 On the Corner comes with an anthracite steel interior and a premium-grade burner bed made of wooden logs. It's perfect for L-shaped living rooms, because it can be mounted in the corner formed by two joining walls. On top of that, it comes with the Ecomax remote control and you have the options of adding Wi-Fi-control with our Trimline Fires app.

## Product specifications

### FEATURES

-  Balanced flue gas fire
-  Room divider model
-  Single burner
-  Wood logs fuel bed
-  Ecomax remote control
-  Anthracite steel panel interior

### OPTIONALS

-  Pebbles fuel bed
-  Anti reflective glass
-  Mains adapter GV60
-  Wall bracket remote control
-  Domotica smart connection
-  Wall switch
-  Set for app control
-  Puck control

## Styling & Optionals

### Ecomax remote control

For absolute ease of use all appliances are supplied with an Ecomax remote system that controls the fire at the touch of a button.

### Options interior finish materials and Trimline Wi-Fi control

For that extra WOW factor, there is also an option to add the pebbles burner bed. Other available upgrades also include Wi-Fi.

Appliance name	Trimline 2050 On the Corner			
Appliance type	Balanced flue built-in gas fires (C11, C31, C91)			
Purpose	Ambient heating, real flames			
Engine identification	1080			
Gas type-pressure	Natural gas G25.3 – 25 mbar	Natural gas G20 – 20 mbar	Natural gas G25 – 20 mbar	LPG G30/31 – 28-50 mbar
Heat input (kW)	8.7	8.8	8.6	8.5
Heat output max (kW)	8.1	8.3	8.0	7.8
Heat output min (kW)	2.5	2.8	2.4	2.5
Consumption (m³/h and kg/h LPG)	1.0	0.9	0.9	0.5
Efficiency (%)	93	94	93	92
Energy label highest efficiency	A	A	A	A
Flue lay out wall termination	Indirect 1m vertical and max 3,5m horizontal			
Weight (kg)	85			
Efficiency class EN613	1			
NOx Class	5			
PIN ID CE	0461CN0995			
Gas connection	3/8" outside connection			
Electrical connection	6 VDC battery powered			
Gas control system	Mertik Maxitrol SYMAX B6R radio controlled 866 mHz			
Safety	Thermocouple flame supervision and pressure hatches			
Heat distribution	Internal convection system			
Connectivity	Optional App control (Android and IOS), wall switch and domotica connection			
Flue type and diameter	Holetherm-CC concentric flue 100-150mm			
Standard supplied	Adjustable legs – Convection chamber and grills – Wall brackets – Log set			
Optional	Support iron for brickwork chimney breast			
Remarks	Always use non-combustible construction materials such as metal stud framing and fireboard cladding			

## Installation details

### Concentric flue system

Using the THC-CC double wall chimney system the flue gases are safely transported to the outside and fresh combustion-air is pulled inside the appliance. Balanced flue appliances can be installed using a wall terminal so no traditional chimney is needed. THC-CC is made of high quality stainless steel and approved according CE standards in combination with the Trimline appliances.

### Balanced flue gas fire

One of the most innovative aspects of the Trimline 2050 On the Corner is that there is no need for an existing chimney to be present. This is all down to the clever features of our balanced flue gas fire, that is fully room sealed. Not only does this make for a highly efficient and safe appliance, but when combined with our concentric flue system, our fires can be positioned in virtually any part of your home with a relatively simple 'chimney breast' built around it. A direct wall outlet from the back of the fire makes the installation even easier.
