Trimline iX18 Solus

A masterpiece in modern fireplace design. Transform your home with the Trimline iX18 Solus, an impressive 180cm electric fireplace designed for those who appreciate both innovation and elegance. This stunning feature piece delivers a captivating flame display, customizable ambiance, and effortless operation.

Perfect for modern homes, luxury apartments, and stylish office settings, the Trimline iX18 Solus brings warmth, comfort, and sophistication to any environment.

Trimline iX15 Solus Front

Trimline iX15 Solus Front

Trimline iX15 Solus Front

Trimline iX15 Solus

Elevate your living space with the stunning Trimline iX15 Solus, our latest innovation in electric fireplaces.

This cutting-edge model features state-of-the-art holographic technology, creating the most realistic and mesmerizing flame effect ever seen.

With its sleek design and seamless integration into any décor, the iX15 Solus offers both style and functionality. Enjoy customizable heat settings, energy-efficient operation, and a variety of flame colors to suit your mood. Transform your home with the Trimline iX15 Solus - where elegance meets innovation.

Trimline iX13 Solus

Enhance your home with the Trimline iX13 Solus, a sleek 130cm electric fireplace designed for versatility and style. Perfect for smaller rooms without compromising on impact, this beautifully crafted fireplace delivers mesmerizing flames, customizable ambiance, and effortless operation—ideal for creating a warm and inviting atmosphere. The perfect addition for modern apartments, cozy living areas, and stylish office spaces, the Trimline iX13 Solus offers warmth, comfort, and elegance in a more compact design. Experience luxury and ambiance in perfect balance.

Trimline iX10 Solus

Compact Luxury, maximum comfort.

The Trimline iX10 Solus is designed for those who want a stunning fireplace experience in a more compact form. At 100cm wide, it's the perfect solution for cozy spaces while still delivering the captivating beauty of a premium electric fireplace.

With its elegant design and advanced features, this model creates a warm and inviting ambiance without taking up too much room. Perfect for those who want both style and practicality, the Trimline iX10 Solus brings the warmth and charm of a fireplace into any space—big or small.

Trimline E-Solus

Built-in is easy! Steel side glass panels are already mounted. The standard front faced fire can easily be transformed to a corner or panoramic fire by removing the side panels.

Whether you are planning on creating the ultimate social hub, or simply increasing the wow-factor of your living room, make every detail matter with a Solus appliance from Trimline Fires.

Seeing is believing. Scan this QR code for a video experience that will change the way you think about electric fires.

Trimline 220E Solus Front

Quality

The Solus Collection is built on nearly 70 years of experience in the fireplace industry. Using traditional skills alongside modern design methods to create unique, high quality stylish and functional products.

Excellence in quality is an integral aspect of all our appliances. Our meticulous attention to detail, high standards and quality craftsmanship means you can be confident in choosing a Solus electric fire.

For various models we offer complete suites and plinths. Please ask your retailer for the options and prices.

Trimline 220E Solus Corner

Trimline 220E Solus

At 2.2 metres in length, the Trimline 220E Solus is the largest fire in the Solus Collection. This elegantly styled landscaped electric fire will fit seamlessly in a wide range of interiors. It's particularly suited to modern interior design styles.

As impressive as it is, you are still in control of every aspect of the fire, from the speed, colour, and brightness of the captivating flames to the enchanting crackling sounds of burning logs.

Trimline 220E Solus Front

Trimline 220E Solus Panoramic

Trimline 180E Solus Panoramic

Trimline 180E Solus

When you really want to create an impression, the Trimline 180E Solus really makes an impact. At 1.8 metres in length, this fire is sure to create an eye catching centrepiece to any room.

The standard front faced fire can easily be transformed to a corner or panoramic fire.

Trimline 150E Solus Corner

Trimline 150E Solus Panoramic

Trimline 150E Solus Front

Trimline 150E Solus

Whether you want to update or build a contemporary dream home, the Trimline 150E Solus will transform any room with a sense of luxury. This fire is 1.5 metres in length and can be installed in either front, panoramic or corner aspect allowing you full creative control.

Trimline 130E Solus

At 1.3 metres in length, the Trimline 130E Solus is ideal for a range of interiors with its minimalist design themes. Add a sense of wonder to your home and bring it to life with the touch of a button.

The standard front faced fire can easily be transformed to a corner or panoramic fire.

Trimline 130E Solus Panoramic

Trimline 100E Solus Front

Trimline 100E Solus Corner

Trimline 100E Solus Zenith Suite

Trimline 100E Solus

Add luxury to your living space with the Trimline 100E Solus, 1 metre in length, the ultimate home investment. With an option of front, panoramic or corner aspect you will be spoilt for choice when creating your perfect fireplace.

We offer a Zenith Suite with this fire. This is a marble looking suite that fits the fire perfectly. The suite is available in white and black.

Trimline 80E Solus Front

Trimline 80E Solus Front

Trimline 80E Solus

The Trimline 80E Solus electric fireplace is a stylish and contemporary addition to any home. Featuring a sleek, frameless design, it seamlessly integrates into modern interiors. The fireplace offers a stunning flame effect, available in multiple color options, and is enhanced by a crystal-clear glass bed.

It comes equipped with an adjustable thermostat and remote control for convenient operation, allowing you to easily set the perfect ambiance and warmth. Energy-efficient and easy to install, the Trimline 80E Solus is the perfect blend of form and function, providing both aesthetic appeal and practical heating solutions.

Trimline 75E Solus Panoramic

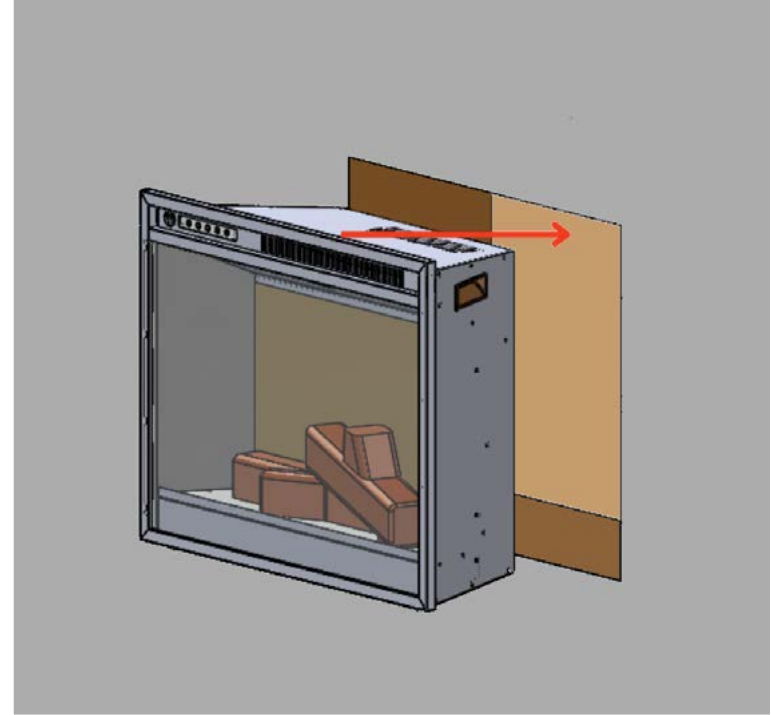

Trimline 75E Solus Panoramic

Trimline 75E Solus Corner

Trimline 75E Solus

The Trimline 75E Solus is a versatile fire, perfectly at home in a contemporary setting or more traditional environments. The large glass viewing panel is perfectly suited for use with our modern furniture elements or with a complementing fireplace mantel, bringing a welcome sense of grand stature. The standard front faced fire can easily be transformed to a corner or panoramic fire.

Trimline 60E Insert

The Trimline 60E Insert is the ideal solution for transforming your existing open fireplace into a modern, efficient heating source. Designed for effortless installation, this electric insert fits seamlessly into most traditional fireplace spaces. It boasts a realistic flame effect, with adjustable brightness and color settings, providing the cozy ambiance of a real fire.

The Trimline 60E Insert features an intuitive remote control, making it easy to adjust the heat output and flame appearance from the comfort of your chair. Perfect for enhancing both the aesthetic and functional aspects of your home, this insert combines contemporary style with practicality, offering a convenient and eco-friendly alternative to traditional fireplaces.

Trimline 60E Insert

Setting the scene

Our approach is to create beautiful, inspiring appliances that change the perception of a traditional electric fire.

With a Solus fire, you are in control of every aspect, from the speed, colour and brightness of the entrancing flames to the enchanting crackling sounds of burning logs, or the complementing ambient lighting of your extended living space.

Our unique TriLight Technology provides multi-angled, fully customisable dynamic LED lighting to create thousands of unique colour and tonal combinations to the flames and fuel bed. Each can work in harmony with one another or can work independently to create a unique juxtaposed combination to create a truly unique atmosphere. All at the touch of a button.

To provide an insight into the possibilities, all Solus fires come with 6 programmed themes to highlight some of the fascinating lighting combinations that can be created. These are:

Autumn Campfire

Ember Glow

Inferno

Noir

Fire & Ice

Nebula

Instant heat at your fingertips

Part of the Solus design ethos is to ensure that all appliances offer clear and simple controllability. Whilst functionality may have advanced and become more dynamic, we believe that intuitive interaction is paramount.

The Solus fires can be conveniently controlled in three ways:

- Manually using the multi-function panel discretely located on the appliance.
- With the intuitive remote-control handset, that comes standard.
- Through your smart device (such as phone or tablet) using Wi-Fi connectivity.

With built in Wi-Fi connectivity, enhance your user experience with our smart app enabling you to control your appliance from anywhere! The app allows you to set tailored programmes, schedule on/off times, set temperatures, design custom light effects, plus much more.

The quick start heat option allows you to select low heat (0,9kW) high heat (1,8kW) or cool blow at the touch of a button. Whilst adaptive smart heating allows you to schedule the exact time and date you wish to heat your room, automatically adjust the environment to reach and maintain the desired temperature.

We are committed to a sustainable future, ensuring that our appliances make the most efficient use of energy. All Solus appliances benefit from temperature detection and regulation technology; if there is sudden drop in room temperature, perhaps caused by an open window or door, the appliance will temporarily deactivate any heating functions to avoid energy wastage and will reactivate when the window or door is closed.

Optional ambient lighting

Extend the atmosphere beyond the fire and into the room using a Solus ambient lighting kit, allowing you to create a further interactive dimension to the environment. This additional lighting features 15 colour modes and can be controlled by the appliance remote control or via your smart device. The kit features a 3 metre length of RGB LED strip light and up to two kits can be simultaneously connected to a Solus appliance, making it the perfect addition to fire suites and media walls.

For the ultimate in perfection, look to nature!

Introducing the Coppice log set, the definitive upgrade for your E-Solus appliance. Offering the ultimate in realism, this hand-crafted piece uses specially selected, natural logs to create an authentic latticed fuel bed, complete with forest floor embers. Every Coppice log set is unique and produced using locally sourced materials, expertly bonded together to form a single, easy to install product that adds the perfect finishing touch to your fire.

Trimline Solano

Trimline Horizon

Trimline Bassington

Trimline Horizon, Solano & Bassington

This electric stove series brings together the best of past and present. With the looks of a classic tiny wood stove, this fireplace will instantly become the centrepiece of your living room. We offer 3 different designs to choose the best matching model for your room.

The stove shows a lifelike fire and glow that can be adjusted to your taste in colour and flame speed. You may even choose the option to have your flames with or without the sound of crackling fire.

You can control the settings using the buttons on the device or on the supplied remote control. The fireplace can also heat in two modes (900Watt and 1800Watt).

Trimline Horizon

Optional customisation

It is possible to add something extra to the Solus stoves. The Solus stoves are nice little ones and unique in their own way. You can customise them even more by adding a pipe and or lifting it up and put it on a pedestal.

Flue elbow

Add a decorative flue elbow that suits your stove. This 90° flue elbow makes your stove look even more authentic. With its magnetic construction it can be easily placed or removed.

Logstore

Take your stove up to the next level and add a pedestal. This is giving it a completely different look. Choose the option that suits you best.

INNOVATIVE HEATING SOLUTIONS GROUP

All your fire needs, provided by
our unique solutions

Innovative Heating Solutions Group (the IHS Group) is a collection of Dutch companies consisting of LEWO BV., Home Fire BV. and thermoCet International BV. The IHS Group is a leading producer and distributor of innovative, sustainable ambient heating products.

Everything you need in one place

With unique stoves, fireplace solutions, flue gas systems, accessories and other parts, the IHS Group meets the complete needs and specific wishes of every customer.

thermoCet International BV.

thermoCet has been active in the development and production of gas and wood-fired fireplaces since 1974. Products are developed by our own R&D department and ultimately CE approved. The utmost care is given to quality, durability, installation and ease of operation. Production and assembly take place in our own factory. The fireplaces have been sold under the name Trimline Fires since 2019, and the range of gas fireplaces has been further expanded with built-in and free-standing fireplaces, wood and pellet stoves, and electric fireplaces.

LEWO BV.

Under the name Holetherm, metal ware factory LEWO produces high-quality flue gas exhaust systems from stainless steel in Woudenberg. The development of new products also takes place in our own ISO-certified factory. Since 2022, De Hoeken B.V. (DHK) has been integrated within LEWO. As a result, LEWO now also offers a complete range of fireplace parts and accessories to complete the installation of your fireplace.

HOLETHERM

Home Fire BV.

With more than 30 years of experience, Home Fire is a supplier of high-quality ambient fires. Home Fire specialises in the design, creation, and project-based delivery of unique fireplace solutions. The result is beautiful projects for luxurious residential and holiday homes, design gardens and hospitality. Due to the unique combination of companies, Home Fire can deliver a project from A to Z. This is where the strength of the IHS Group and its products come together.

A VERY WARM WELCOME
